Dear Student Friends,

I had received an email from ICAI about Institute's efforts for Article Placement and Industrial Training. Please find the email below. It may be useful to you.

Dear Member,

Greetings from Students Skills Enrichment Board, BoS (O)!!!

It gives me immense pleasure to inform you that ICAI, Students Skills Enrichment Board, BOS (O) has launched the Article Placement & Industrial Training portal **https://app.icai.org**.

The Portal showcases the number of students eligible for enrolment as well as members available for imparting training to them. The portal will intimate the students well in advance through the system about their eligibility for industrial training via emails/SMS. The portal will give online approval to industries who intend to impart Industrial Training to CA aspirants as per our Chartered Accountants Regulations.

The Institute has put its best efforts to enhance the portal in such a way that all the needs of the students and the companies can be addressed under one platform. We are sure that this portal will address all the challenges faced by the students in finding companies for doing their practical training.

Please click on the below link for the User Manual for understanding the workflow of the portal along with the brochure and Industrial Training Guide. You may write to app@icai.in or for any queries related to the portal and its working.

1. Industrial Training Guide
2. User Manual

With Regards,

Chairman,
Students Skills Enrichment Board, BoS (O)
