Life Lessons # 21 to 30

- A request :
- Please read it slowly, carefully and think about it to absorb the meaning.
- If it is worth implementing in real life, then please try to implement it.

Life Lesson # 21

- Check the conversation below :
- Que. 1 : What is the reason for your success?
- Ans. 1 : Good decisions.
- Que. 2 : What enables you to make good decisions?
- Ans. 2 : Life's experiences.
- Que. 3 : How do you get life's experiences?
- Ans. 3 : Bad decisions.

Conclusion : Take decisions in life, whether good or bad.

Life Lesson # 22

- Everything should have a place and
- It should be at its proper place.

Life Lesson # 23

- Instead of accepting yourself as you are and expecting the world to change, accept the world as it is and you start changing your approach towards the world.
- Let life be beautiful because of the world. Let life be beautiful in spite of the world.

Life Lesson # 24

- The customer is always right – right? Wrong! The customer is the king – isn't it? Not always... it depends on who the customer is.
- There are some customers who will remain dissatisfied, no matter what you do. No matter how you serve them, they will keep criticising your product and service. You will have to bend down on your knees for every payment.
- Why not fire some of those clients from your client list and invest the resources saved on some best customers? The search is not merely for customers, but for good customers.

Life Lesson # 25

- Let our behaviour not be instigated by forces from outside, but be born out of an internal value based choice. Let not some man or woman in the world outside parade over our inherent goodness.
- ‘Someone is wrong’ isn’t an excuse for us to be wrong. Wrong as a response to wrong isn’t the right way. At every opportunity, let us get ahead of people and not get even with them.

Life Lesson # 26

- There is nothing right and nothing wrong in this world. It is just a difference of opinion.
- 'Live In' relationship is considered wrong by some people but ask those who are staying together.
- It means, everything is right if you see it from right angle and it is wrong if you see it from wrong angle.
- Once we start respecting the other person's point of view, then we find that he is right from his side. We have to just change our attitude and the world changes.

Life Lesson # 27

- Time Management is very important in life.
- The one who has learned “Time Management” has learned “Life Management”.
- Spend your time the way you spend your money.
- Decide priorities in your life and allocate your time based on your own priority.
- Your ‘Life’ is nothing but a ‘Time’ which you have borrowed between your birth and death.

Life Lesson # 28

- Benjamin Franklin says -
- “Investment in Knowledge gives the Highest Returns”.

Life Lesson # 29

- Healthy Body and Sound Mind are the Greatest Asset of your Life.
- Please invest some time in both these.

Life Lesson # 30

- One should possess KNOWLEDGE to take decisions.
- But one should possess WISDOM to take right decisions.
- Knowledge is mainly related to information, facts and figures.
- Wisdom is the ability to distinguish between what is right and what is wrong.
- In today's world of internet and google, everyone has become knowledgeable but has lost wisdom.

Thank you !

Please share it if you like it.
